

Hello, new friends and patients!

I am honored that Dr. Wroblewski has chosen my office to merge into and I promise to earn the loyalty that you have so graciously given to Dr. Valerie. Under my care, I will always give you the most attention that I am physically and emotionally able to give. I know that Dr. Wroblewski has always provided great personalized care, and that is how I work as well. It's what I am known for and something I take tremendous pride in.

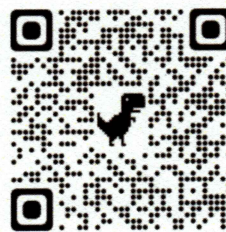

As I am one of the few general dentists in the city who have earned a fellowship in dental implantology, in addition to the other treatments that I provide, my patients enjoy access to broad in-office dental services (reducing the need to be referred out to specialists). This will increase your comfort through various treatment processes and, as I hope to prove to you, your comfort is my obsession. I, too, am a dental anxiety patient so please know that I understand what you're going through as I'm working. I care very much about your experience. My patients are the center of my world.

I am in-network with many insurances and have an in-house discount plan for those who pay out of pocket.

My husband and I have a small family, with our son soon to graduate high school in this beautiful city that has given us so much. It is my great honor to care for the kind people of Albuquerque! I love being a dentist and my relationship with my patients is what gets me up every morning. I look forward to providing each of you with great care!
